

Pre-College Engineering for Teachers (PCET)

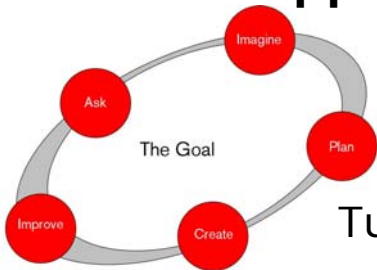

“Engineering is Elementary!” 2007 Summer Workshops

PCET workshops are designed to prepare elementary school teachers to include engineering using the *Engineering is Elementary* (www.mos.org/eie) Curriculum. PCET is an NSF sponsored program.

- 5 day workshops (dates and locations below)
- Grades 1-2 or 3-5 Teachers
- Earn a \$375 stipend and 40 PDPs (NO grad. credit)
- Participants receive curriculum materials

To apply go to: www.mos.org/eie/pcet.php

Locations and Dates

Tufts	July 9-13 8am-4pm	1-2 grade teachers 3-5 grade teachers
UMass Lowell	June 25-29 8am-4pm	1-2 grade teachers
UMass Lowell	July 9-13 8am-4pm	3-5 grade teachers
WPI	July 9-13 8am-4pm	1-2 grade teachers
WPI	July 16-20 8am-4pm	3-5 grade teachers

Teacher Feedback about PCET 2006

“The day was mixed with a variety of lessons including hands-on, group work, lecture, guest speakers and individual planning. I just loved the guest speakers and professors and how they connected engineering to the real world for us and exemplified how engineers help people and solve problems. I am now truly enthusiastic about the profession of engineering and I know it will be a cinch to pass that on to my students.”

“This workshop was the best one I have taken in a very long time. I got so much information that I can actually apply to my curriculum.”
