

# Museum of Science Traveling Programs for Schools: Scholarship Application

1) Traveling Program you're requesting funding for: \_\_\_\_\_ School Year: \_\_\_\_\_

2) The combined % of students at the school who receive free or reduced lunch: \_\_\_\_\_

3) What grade(s) are you targeting to receive the program, and why? Be specific about how many classes are in each of these grades, what their curriculum connections are, and any teacher comments that you think would be useful for us to know. Attaching a copy of your school's curriculum outline will strengthen your application.

4) Describe the space at your school where we could hold the program. Be sure to check the space needs on the website. Remember that you will lose this space for the entire duration of our visit, so check with your principal to make sure this is feasible.

5) Please list all the other enrichment programs you expect to have this school year for the grade(s) you're applying for (you can use last year's lineup as a model). Do not include all-school assemblies; we are only concerned with programming that is *specifically* for this grade or grades.

| Grade served | Program | Cost | \$ Source |
|--------------|---------|------|-----------|
|              |         |      |           |
|              |         |      |           |
|              |         |      |           |

6) Scholarship programs are primarily scheduled in September, October, November, and December, with a few isolated dates in spring. Does your school have any preferences?

Your name, home address, home phone, **home email**:

The principal's name, school name, school address, phone, fax, and **email**:

*Write neatly! If we can't read your e-mail address we can't let you know our decision.*
