**FREQUENTLY ASKED QUESTIONS**

- **Can I book a program for my child's birthday party?** Unfortunately we do not attend birthday parties or visit private homes.
- **Do any programs have distance restrictions?** Live animals cannot be away from the Museum for more than six hours, so Reptiles cannot be booked for sites more than 250 miles from the Museum. Sites 50 to 75 miles from the Museum can book up to two sessions in a visit. Sites 75 to 100 miles away are limited to a single session.
- **Do any programs have space restrictions?** Most programs are indoors-only, except Super-Cold Science, Science Magic, and Reptiles. All programs have varying space needs based on their category and capacity, and Night Sky is particularly intense in this regard. See the relevant provisions for pictures and dimensions of the program setups.
- **How early can you start? How late can you stay?** We can leave the Museum as early as 7:00 a.m. The earliest we can start teaching depends on how long it takes to drive, unload, and set up—factors that vary by program and location. Evening programs must conclude in time for the educator to return to the Museum by 10:00 p.m.
- **Why do you charge travel fees?** In Summer 2019, we are NOT charging travel fees to visits in New England! Just program fees and possibly lodging fee (see next question).
- **Will my site require an overnight visit?** Any site located more than 150 miles from the Museum will require an overnight stay to make scheduling practical. Sites located 150 to 250 miles from the Museum may choose an overnight because of specific scheduling needs. On all overnight trips, the site is responsible for lodging fees, but not meals. Live animal programs cannot be booked for overnight programs.
- **The group presentations are 30 minutes long. Would a longer show be possible?** Yes! We offer “XL” hour-long versions of Super-Cold Science, Science Magic, and Reptiles for an additional $50. Only one session may be reserved, and bookings are limited to camp/youth/school groups with solely school-age children.
- **We were looking for more of a drop-in activity for our evening or weekend community event. Got anything?** Yes! We can occasionally attend weekend community events or evening community/STEM nights with a small team of educators staffing a drop-in activity station. Some of these visits are charged, and some have funding available. Contact us for more details.
Traveling Programs are made possible by the generous support of:

Boston Athletic Association
Gordon Foundation
Ina and Lewis Heafitz
Hermann Foundation
Jane & Neil Pappalardo Fund
Lowell Institute
The Topol Foundation
William Randolph Hearst Foundation
Gwill E. York and Paul Maeder
