

Night Sky

A Museum of Science Traveling Program

Description

Night Sky is a 30-minute immersive program that teaches audiences how to find celestial objects in their own nighttime sky.

Needs

Access to 110-volt electricity is required to power our inflatable planetarium.

Space Requirements

The program requires an indoor room, with an empty area at least 25' by 25' in area, with 11' of clearance to the lowest light or ceiling fixture.

Planetarium Experience

Inside the planetarium, participants will observe a realistic model of the nighttime sky.

Planetarium Experience

Audiences will learn how to find planets, constellations, important stars, and other astronomical objects.
