In the ocean, our differences are what make us special! Whether it’s the size of our fins, the color of our tail, or how fast we can swim — we appreciate all of the unique sea creatures that make exploring the ocean so much fun!

Each character has 3 differences. Can you spot them?

**Dunk**

**Gush**

![Gush Character Image]
Splash and Bubbles are best friends!

Can you draw yourself with your best friend?
Splash is hiding in the coral reef! Can you help Bubbles find him?

Where’s Splash?
Can you draw five things you might find in the ocean?

Be creative! The ocean is full of many different species of animals and plants — that’s what makes it so beautiful!
Kelp Forests, like the one Tidy lives in, can be found along much of the west coast of North America. In ideal conditions, Kelp can grow up to 18 inches per day as it stretches towards the ocean's surface to reach the sunlight. Can you help the Reeftown Rangers navigate through the Kelp Forest in order to find their friend Tidy?
