2019 ANNUAL REPORT

FISCAL YEAR 2019 FAST FACTS

- $27.9 million new gifts and pledges
- $171.8 million endowment
- 344 full-time employees
- 71 part-time employees
- 157 temporary employees
- 395 volunteers contributed 31,400 hours
- 1.4 million visitors
- 46,049 member households
- 165 corporate members
- 139,758 school children participated in field trips to the Museum
- 17,454 children and chaperones attended overnight programs
- 93,617 individuals (77,535 school children and 16,082 public audience) served by Traveling Programs, covering 9,600 miles throughout New England; $141,000 in scholarships awarded
- 23,713 free Exhibit Halls admissions provided to Massachusetts residents qualifying for Electronic Benefits Transfer (EBT) or Supplemental Nutrition Program

FISCAL YEAR 2019 HIGHLIGHTS

- David Mugar made a $3 million gift that will support the conversion of the Mugar Omni Theater, a beloved New England icon, from 70mm film projection to a state-of-the-art 4k/digital laser projection system.
- At the conclusion of a three-year effort, the Museum surpassed its $20 million goal and raised $23.5 million for the Blue Wing Founders Fund, which will support the transformation of the Blue Wing. This impressive figure was reached after a successful matching fund challenge by trustee emerita Brit d’Arbeloff generated $3 million.
- The Lowell Institute, the Museum’s longest-standing supporter, received the 2018 Colonel Francis T. Colby Award, the institution’s highest philanthropic recognition. A relationship between the two major New England institutions stretches back to 1840 when Yale professor Benjamin Silliman gave the first Lowell Lecture.
- Esteemed author Margot Lee Hekterly received the 2018 Bradford Washburn Award. She wrote Hidden Figures: The American Dream and the Untold Story of the Black Women Mathematicians Who Helped Win the Space Race.
- Dariush Mozaffarian, MD, DrPH received the 2018 Walker Prize, which recognizes meritorious published scientific investigation and discovery.
- Visitors flocked to the Museum to see engaging temporary exhibitions including At Aboard! Trains at Science Park, Wild Kratt: Ocean Adventure, Nature’s Superheroes, and BODY WORLDS & The Cycle of Life.

The Lowell Institute, the Museum’s longest-standing supporter, received the 2018 Colonel Francis T. Colby Award, the institution’s highest philanthropic recognition. A relationship between the two major New England institutions stretches back to 1840 when Yale professor Benjamin Silliman gave the first Lowell Lecture.
CELEBRATING OUR SUPPORTERS!

As a nonprofit organization, the Museum of Science relies on generous philanthropic contributions from supporters like you so we can remain on the cutting edge for exhibitry, programs, and curricula. Our Fiscal Year 2019 (July 1, 2018 – June 30, 2019) Honor Roll recognizes your importance, and we are grateful to say, “Thank You.”

LEADERSHIP GIFTS
This Museum is deeply grateful for those individuals who make commitments to special initiatives, endowment, and current-use support. Their leadership gifts advance the Museum’s efforts to push the boundaries of STEM education in both formal and informal settings. Thanks to their support, the Museum will realize its vision to become the leading science center worldwide in expanding the public’s access to, understanding of, and critical thinking about, engineering, technology, and the sciences.

Alzheimer’s is a progressive, neurodegenerative disease that robs people of their memories, their independence, and, ultimately, their lives. The disease affects nearly 6 million Americans, and the number of people diagnosed with it is expected to triple by 2050. Throughout the month of July, the Museum of Science will host a series of programs that explore the current understanding of Alzheimer’s and the latest research on the disease. Learn more about the efforts to find a cure through the Mayo Clinic’s Alzheimer’s Disease Research Center and the latest research on possible treatments at a talk by Dr. Tiffany Head. Meet with researchers at the National Alzheimer’s Coordinating Center and participate in an Alzheimer’s caregiver care group. All programs are free, open to the public, and appropriate for families and caregivers alike.

Join us to explore the latest developments in Alzheimer’s research and learn how you can join the fight. You can take the Alzheimer’s Action Now! pledge and commit to take action to prevent, treat, and cure Alzheimer’s.

The Alzheimer’s Action Now! Pledge

I pledge to:

- Increase awareness of Alzheimer’s disease
- Support Alzheimer’s research
- Advocate for families affected by Alzheimer’s
- Take action to prevent, treat, and cure Alzheimer’s

Thank you for your support in the fight against Alzheimer’s disease.
Innovators enjoy the Body Rock event.

MATCHING GIFTS
Many corporations and organizations demonstrate their commitment to their employees and to the communities where they reside through matching gift programs. The Museum is grateful to the companies who support the philanthropy of their employees by doubling or tripling the size of their contributions. Some companies extend matching gift benefits to retirees, spouses, and corporate board members.

Harriett "Tee" Taggart

Tee Taggart, currently manages a professional practice, Taggart Associates. She serves as a director on two NYSE corporate boards and is engaged pro bono with a number of major nonprofit organizations. For 24 years, Taggart was a partner and senior vice president at Wellington Management, a global investment company for endowment, mutual fund, and pension fund clients. She joined Wellington in 1983 and had an instrumental role in growing this firm from less than $5 billion in assets under management to over $500 billion when she left at year-end 2006. She holds a PhD from the Massachusetts Institute of Technology, a master’s from the Kennedy School at Harvard University, and graduated magna cum laude from Smith College.

Sophie V. VandeBroek

Sophie VandeBroek, is a seasoned executive with extensive C-level experience at IBM, Xerox, and UTC and has served on public company boards since 2008. She is a digital expert with deep knowledge in the creation and application of technologies that drive top and bottom-line growth. She is a Fellow of the Institute of Electrical & Electronics Engineers and holds 14 US patents. VandeBroek was born in Belgium where she received a master’s degree in electro-mechanical engineering from KU Leuven. She earned a PhD in electrical engineering from Cornell University.

Jim Wade

Jim Wade is a founder and managing partner of M/C Partners and is responsible for developing the firm’s involvement in telecom services. As managing partner of the firm, Wade leads the investment process including determining sector focus, seeking out management teams, founding new companies, and working with financial sources that provide debt and equity capital to grow companies. Wade graduated from the University of Notre Dame with a BBA in finance and received an MBA from Harvard Business School.

Aleksander Jonca

Chair, The Innovators Leadership Council, Non-Elected Trustee

Aleksander Jonca is a biomedical engineer specializing in work with microfluidics, MEMS, cell cultures, immunoassays, systems integration, and the commercialization of innovative technologies. He is an alumnus of Boston University’s College of Engineering and currently works as a senior research engineer at MicroMedicine Inc. developing a microfluidics-enabled cell separation platform for applications in research, diagnostics, and therapeutics. Jonca has been a member of The Innovators for a number of years, serving on The Innovators Leadership Committee since 2015.

The Board of Museum Advisors of the Museum of Science 2018 – 2019
The Museum Advisors of the Museum of Science are a group of community leaders and friends with a special interest in science, technology, and education who support the mission of the Museum.
